

(Begin Belt 5)

April 10, 1974

PRESIDENT: Thank you. Stand by, we're waiting. We have the motion to adjourn. But we're stand by because we have to wait until those bills come back before we can adjourn. You can be at ease for a little bit here. Senator Carpenter, for what purpose do you rise?

SENATOR CARPENTER: Just to notify the Body the Executive Board will meet at 1:00 o'clock. Those who are not a member of the board are welcome to attend if you so desire. One o'clock in the usual meeting place, today.

PRESIDENT: Senator Richendifer.

SENATOR RICHENDIFER: Mr. President, would we have time while we're waiting to read a short bill? A one-page bill or something?

PRESIDENT: Well, we're afraid to start something and we've got some other motions up here to handle, etc.

CLERK: Mr. President, I move that after reading LB787 which we just completed, that we start on Final Reading with those bills which have A bills accompanying them. Signed, Senator Simpson.

PRESIDENT: All right, Senator Simpson.

SENATOR SIMPSON: Mr. President and members of the Legislature. I move adoption of this amendment or motion. I would hope that we can now take bills that either have appropriations or A bills with them next so that they might go to the Governor's office so the opportunity that he would have more time to look over them also. And I'm only talking about the eligible ones because we can't read the ones on 4/12.

PRESIDENT: Well, do you want to debate the issue here? Okay, Senator Richendifer.

SENATOR RICHENDIFER: Mr. President, I have no objections. There's one bill there that doesn't have an A bill. The A bill was actually in LB1054. LB131.

PRESIDENT: Well, did you want to include that one in his motion, Senator Richendifer?

SENATOR RICHENDIFER: Yes, the appropriation has already been passed.

PRESIDENT: LB131?

SENATOR RICHENDIFER: Yes, the appropriation has already been passed in LB1054.

PRESIDENT: All right. Well, you've heard the motion. Now, do you want to debate it? Senator Carpenter, do you have anything? The question is, do you want to adopt that motion, if you do vote aye, if not....do you understand the motion? The motion...all right, Senator Simpson, state your motion again for the Body and include LB131.

SENATOR SIMPSON: All right, I would also include LB131 and the bills that have A bills attached or appropriations. There may be a bill or two that has an appropriation in it also.
